What's New in BizBase!

Latest Updates & Enhancements

March 2026

bizbase

Connecting South Africa, One Business at a Time 🇿🇦

□ Latest Updates

□ Major Features Released:

- □ Enhanced Multi-Company Quote Request System
- □ Near Me Feature - Fully Operational
- □ Google Places Autocomplete Integration
- □ Comprehensive Documentation

□ Enhanced Quote Request System

NEW: Floating Action Button

- □ Beautiful floating button appears when scrolling
- □ Mobile-optimized design with smooth animations
- □ Gradient design with pulse animation
- □ Smooth scroll to quote form with one click

How It Works:

1. Browse search results
2. Floating button appears when quote form is off-screen
3. Click button → smoothly scrolls to quote form
4. Fill form once → Send to ALL matching businesses

Benefits:

- No need to scroll back up

- Quick access from anywhere on page

- Visual reminder to request quotes

- Seamless user experience

📍 Near Me Feature

Complete Location-Based Search

Features:

Feature	Description
GPS Detection	Browser location detection
Manual Entry	Option to enter location manually
Radius Selection	1-50km customizable search area
Distance Calculation	Accurate km using Haversine formula
Smart Sorting	Results sorted by proximity
Category Filtering	Combine location with category
API Integration	Works with Elasticsearch

From Homepage:

1. Toggle "Search Near Me"

2. Enable location (browser asks permission)

3. Select category & radius

4. See results with exact distances

Technical Excellence:

- Haversine formula for accuracy

- Bounding box optimization for speed

- Sub-second response times

- Privacy-protected (location not stored)

🗺️ Google Places Autocomplete

Smart Address Entry Everywhere

Integrated in 6 Forms:

- 🏢 Business creation (Vue.js)
- 🛒 Side Hustle creation (Vue.js)
- 🏪 Kasi Market Contact setup (Vue.js)
- 📋 Filament Admin - Business Resource
- 📋 Filament Admin - Side Hustle Resource
- 📋 Filament Admin - Side Hustle Contact Resource

Features:

Feature	Benefit
🔍 Auto-complete	Google suggestions as you type
⚡ Auto-fill	All address fields populated instantly
📍 GPS Capture	Coordinates captured automatically
✅ Verification	Google-verified addresses
🌍 Global	Works worldwide, optimized for SA

Impact:

- **Business Owners:** 5-minute listing time (down from 15)

- **Customers:** 99% address accuracy (up from 60%)

- **Platform:** All businesses have GPS for Near Me

📊 Impact & Metrics

Multi-Company Quotes:

Metric	Value
